

## Engine Failures in Single-Engine Airplanes

Engine failures are like sharks: Everyone's afraid of them, but they bite very few of us. No matter how rare, when one happens we've got to get it right the first time. In this seminar we'll discuss the causes of engine failure, risk management strategies, and how to get on the ground safely in the event one happens to you.

This event is sponsored by EAA Chapter 1229.

Social hour with free hot dogs begins at 6 p.m.; the seminar begins at 7 p.m.

**Directions:** The meeting will be held in the terminal building at Fleming Field.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
